

APP DEVELOPMENT BROCHURE

Ministry of MSME, Govt. of India

About Alocodes

Alocodes is an EdTech initiative by Alomonx Technology, created to provide high-quality coding, AI, and cloud training to students, job-seekers, and professionals. We believe that skills matter more than degrees, and our mission is to deliver industry-level training that prepares learners for real-world jobs.

Program Overview

Our App Development Program is designed to help students, beginners, and professionals build modern, scalable mobile applications. This program focuses on real-world skills using industry tools and frameworks like Flutter, Swift, and Android.

Why Choose Our App Development Program?

- **High Demand:** Mobile apps are used in every industry.
- **Lucrative Career:** High-paying job opportunities
- **Global Opportunities:** Work remotely or freelance
- **Creative + Technical Field**

Curriculum Overview

◆ Module 1 : Programming Fundamentals

- Introduction to programming concepts
- Dart / Swift / Java basics
- Variables, data types, operators
- Functions, lambda expressions
- Control statements (if, loops)
- Functions and OOP concepts

◆ Module 2 : Mobile App Development Basics

- Introduction to mobile development
- Android vs iOS ecosystem
- Setting up development environment
- Understanding app architecture

◆ Module 3 : UI/UX Design

- Design principles (color, typography, layout)
- Wireframing using Figma
- Responsive design
- User-friendly interface creation

◆ **Module 4: Flutter / Native Development**

- Flutter basics (Widgets, Layouts)
- SwiftUI (for iOS) basics
- Navigation & routing
- State management

◆ **Module 5: Backend Integration**

- REST APIs integration
- JSON parsing
- Firebase basics (Authentication, Firestore)
- API handling in apps

◆ **Module 6: Database Management**

- Local storage (SQLite, Hive)
- Cloud database (Firebase)
- Data handling and caching

◆ Module 7: Testing & Debugging

- Debugging techniques
- Performance optimization
- Testing apps on real devices

Tools, Languages, Platforms

Sample Projects

1. To-Do List Application

- Skills Involved: Flutter / SwiftUI basics, State management, Local database (SQLite / Hive), UI design.
- Description: This project involves building a simple task management application where users can add, update, and delete tasks. The app will store data locally on the device and provide an intuitive interface to manage daily activities efficiently.

2. Chat Application (Real-Time Messaging)

- Skills Involved: Firebase Authentication, Cloud Firestore / Realtime Database, API integration, UI/UX design.
- Description: Students will develop a real-time chat application that allows users to send and receive messages instantly. The app will include user authentication, chat screens, and real-time data synchronization using Firebase.

3. E-Commerce Mobile App

- Skills Involved: API integration, JSON parsing, State management, Payment gateway basics, UI/UX design.
- Description: Students will predict house prices using data on house features like the number of bedrooms, square footage, location, etc.
- They'll train a linear regression or a decision tree model and evaluate its accuracy.

4. Doctor-Patient Appointment App

- Skills Involved: Backend integration (Firebase / APIs), Form handling, Navigation and routing, Notification system.
- Description: In this project, students will create an app that allows patients to book appointments with doctors. Features include user registration, appointment scheduling, and notifications for upcoming bookings.

5. Social Media Application

- Skills Involved: Database management, image upload & storage (Firebase Storage), API handling, UI/UX design.
- Description: This project involves creating a social platform where users can post images, like posts, and comment. It helps students understand how large-scale apps manage user-generated content.

Career Opportunities

By completing our App Development Program, you'll be ready to take on key roles in the industry, including:

- Mobile App Developer
- Flutter Developer
- iOS Developer
- Android Developer
- UI/UX Designer
- Freelance App Developer

Hiring Companies:

Our graduates have found opportunities at top companies like:

- Flipkart
- VOIS
- Wipro
- TCS
- Cognizant
- Startups and Fintech Companies
